## Ultrasound therapy

For many decades, ultrasound therapy has been successfully established as treatment for chronic inflammatory and degenerative diseases of the musculoskeletal and support system.

**SonoOne – always there**

Ergonomic and high-performance.

The small, compact system is ideal for mobile use.

**Efficient treatment**

1 and 3 MHz, unpulsed and pulsed emission of ultrasound offers every possibility for modern, effective ultrasound therapy.

**Functionality**

Intuitive, clearly arranged and quick to operate.

The colour touch operation makes treatment an enjoyable experience.

SONO ONE

## Technical data

Frequency	1 and 3 MHz
Ultrasound types	Continuous ultrasound  Pulsed ultrasound, adjustable pulse frequencies 10 Hz, 20 Hz, 50 Hz, 100 Hz Duty cycle: 1:1, 1:2, 1:5, 1:10
Transducer surface	5 cm <sup>2</sup> , A <sub>ER</sub> = 3 cm <sup>2</sup>
Intensity	max. 3 W/cm <sup>2</sup>
Intensity levels	0.1 W/cm <sup>2</sup> to 3 W/cm <sup>2</sup> in intervals of 0.1 W/cm <sup>2</sup>
Number of ultrasound transducer connections	1
Dimensions / Weight	H 95 mm x B 138 mm x T 238 mm / 1 kg
