EVE!

The EVE! bath and shower lift perfectly combines one-of-a-kind design with the highest functionality

EVE! - Bath and Shower Lift

The ideal solution for bath and shower ...

The one-of-a-kind, modern EVE! shower and bath lift is just the right tool, depending on the mobility of your resident, to be able to safely and comfortably shower or bathe.

The EVE! is a highly manoeuvrable and easy-to-move lift that is versatile and can be used in any existing care bathtub.

The battery-powered electric motor makes for an infinitely variable and quiet height adjustment that will not agitate the resident. With the associated handheld remote control, the lift can be operated simply and safely by one staff member.

An integrated service module reports technical problems with the lift as well as necessary maintenance.

EVE! Safety, comfort and a unique design

EVE! - Fits in any care bathtub

Provides the highest quality and comfort ...

EVE! - Benefits your caregivers and your residents ...

- ❑ Made entirely of aluminium and stainless steel
- ❑ 100% functional as a shower chair
- ❑ Simple operation by only one staff member
- ❑ Fits any modern care bathtub
- ❑ Unrestricted transfer from the NORA to the seat lifter
- ❑ The carrier frame is formed in a way that allows the resident to sit down on the seat without hindering the legs and heels
- ❑ Ergonomically designed safety steering handles ensure accurate manoeuvring
- ❑ Low entry height of only 49.5 cm
- ❑ Closed, easy-to-manoeuve double castors
- ❑ Handheld control unit with visual indication of battery level
- ➔ **Battery and charger are compatible with all BEKA Hospitec mobile lifts!**
