& Therapy

Live the magic of a place !

The magic of falling in love with your product
or destination is now possible with **TROOM**

T RAVEL

2022

TROOM is a space where you can travel anywhere, smell the scents, walk through the streets and listen to the sounds. You can immerse in the environment or find a connection with nature.

With the magic of **TROOM**, you can reproduce the sea breeze or the moisture of the forest.

Immerse on a journey through your senses and dare to visit the most incredible destinations, enjoying them in all their glory.

With **TROOM** technology, you will be able to interact with all the elements as if you were in the place of your choice. It will arouse your curiosity and stimulate your senses in a playful, highly interactive, and fun environment.

TROOM system's versatility and flexibility allow it to adapt to any space. Its applications are limited only by the user's imagination and creativity.

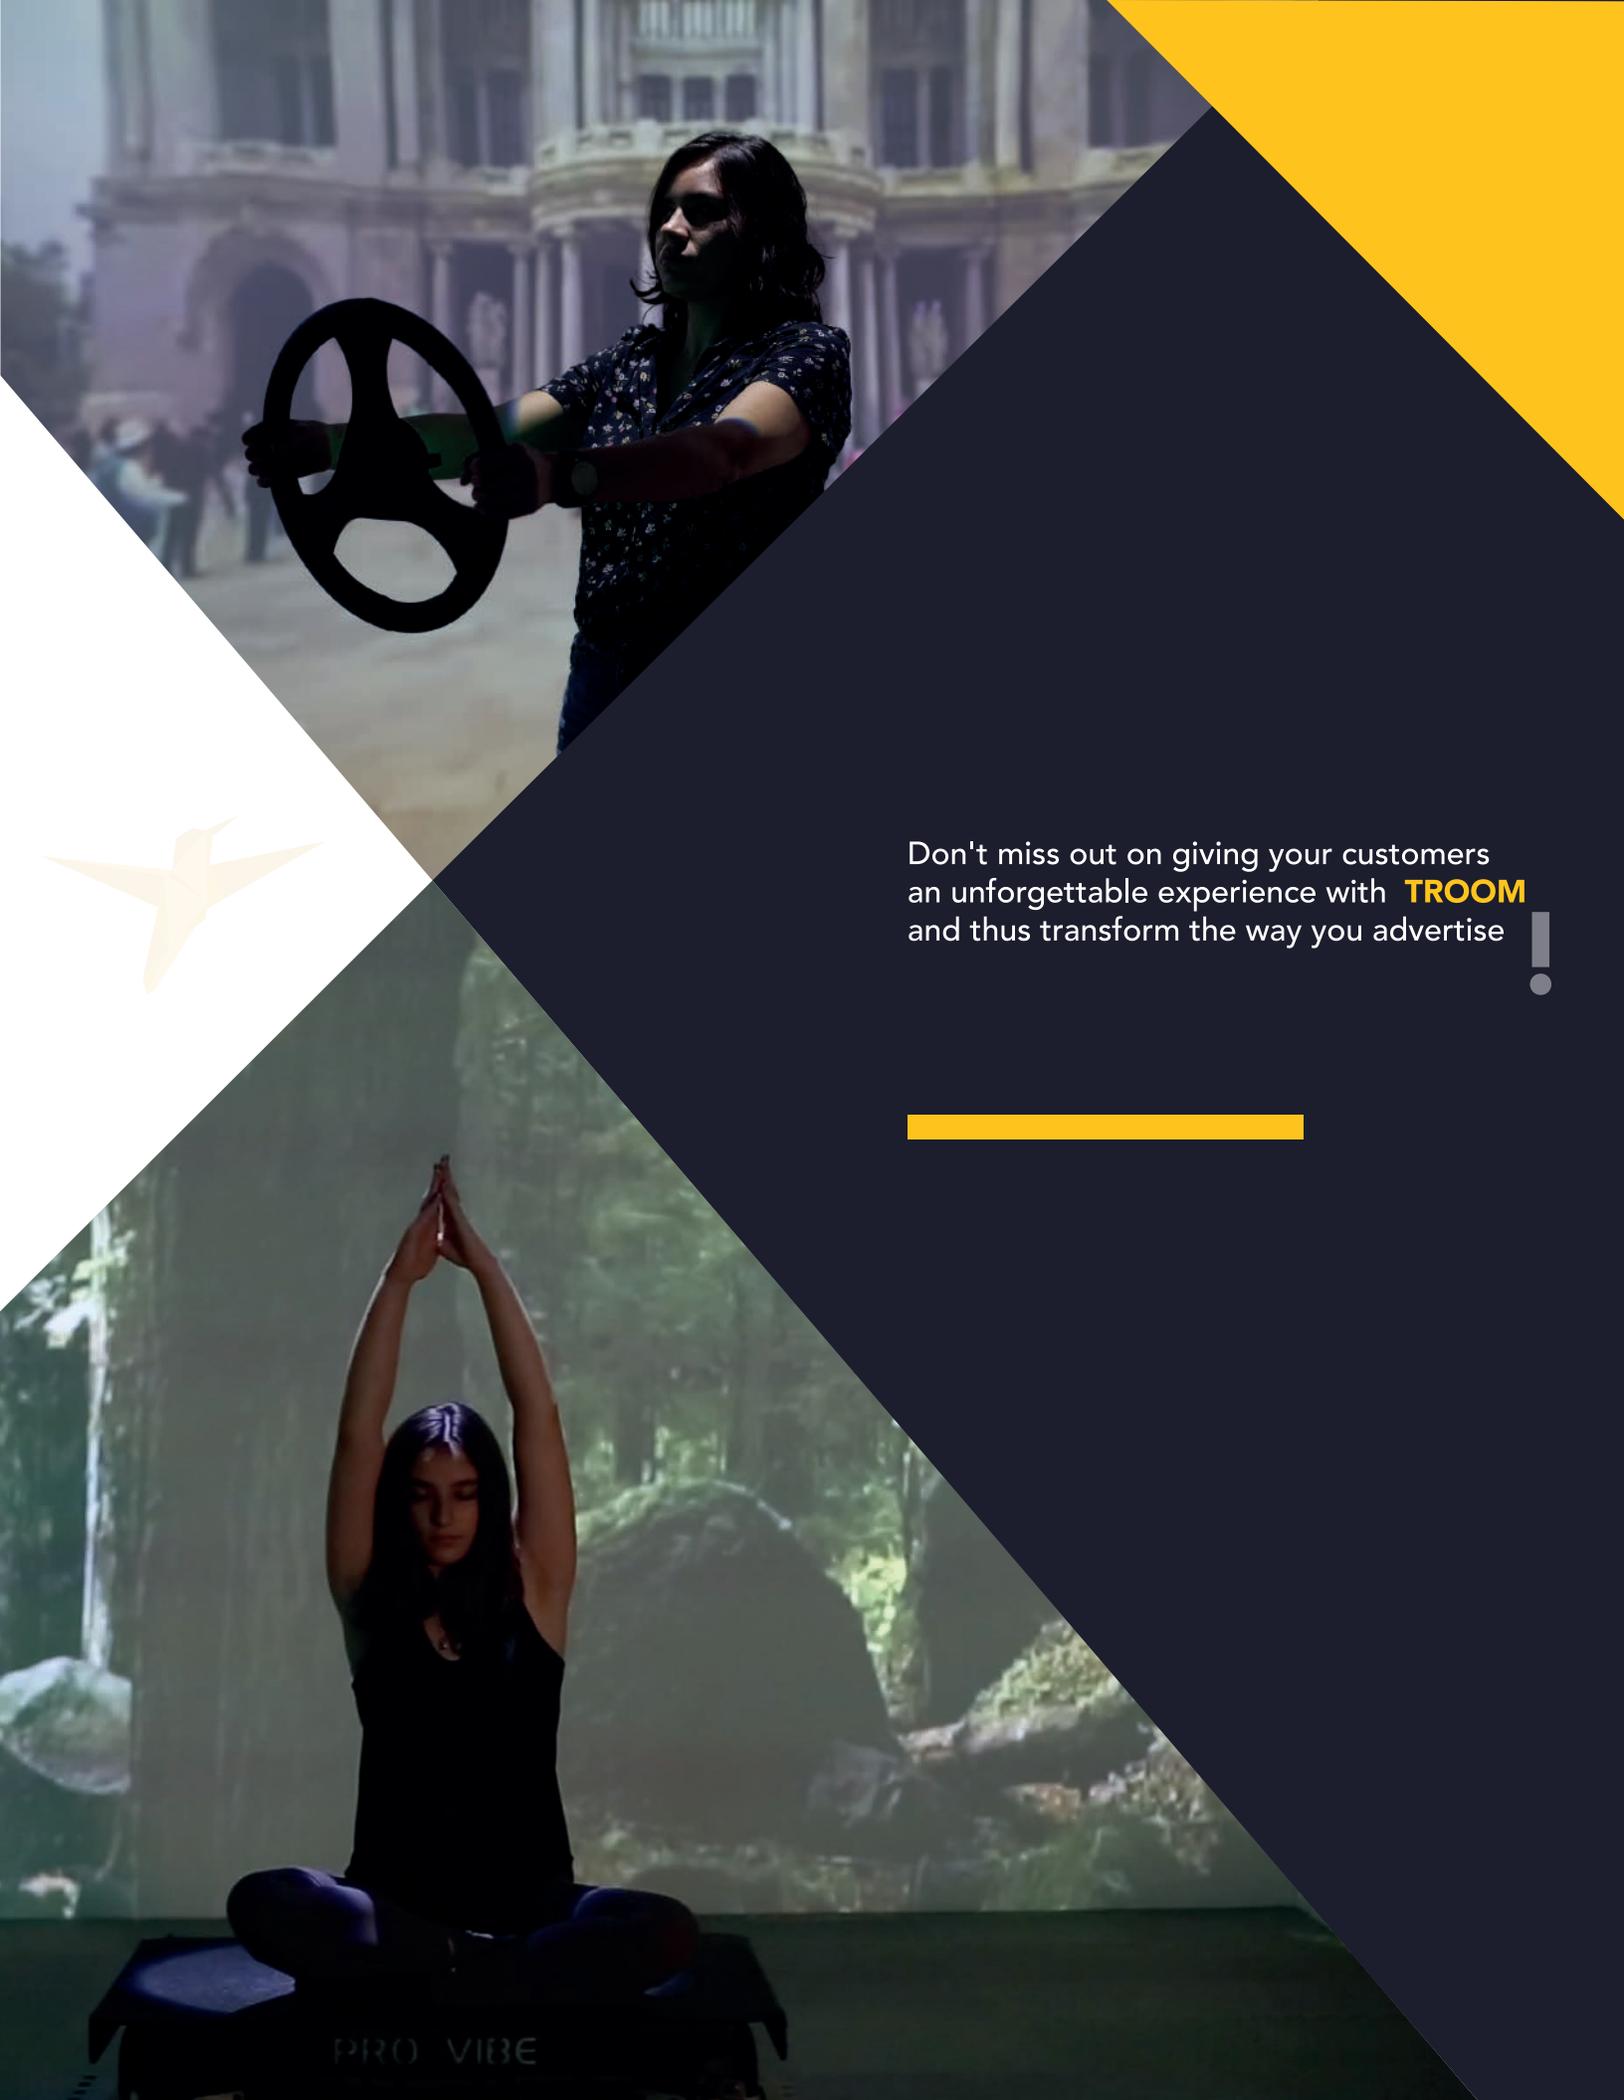

With **TROOM**'s unique system, incredible sensory experiences are created with the most advanced technology, thus enabling the product or destination to be lived and experienced by the user.

TROOM has multiple devices that react to the visitors' voices; they sense their movements and balance and give them the ability to make decisions to create a unique and personalized experience.

It also allows you to involve the user through an interactive and immersive approach by participating in quizzes, skill games, real-time feedback, and much more.

Don't miss out on giving your customers an unforgettable experience with **TROOM** and thus transform the way you advertise
